

FOR IMMEDIATE RELEASE

Unisyn Medical Signs a Multi-Year Vendor Supply Agreement with Cool Pair Plus

August 9, 2011

Cool Pair Plus, with corporate offices in the Midwest and Northeast, announced today that it has entered into a multi-year vendor supply agreement with Unisyn Medical Technologies, Inc., a leading national provider of service solutions to the diagnostic imaging industry. Under the agreement, Cool Pair Plus will be Unisyn's exclusive supplier of MRI magnet services and cryo-refrigeration support.

Chris Cone, President of Unisyn's Clinical Services Group, commented, "The technical expertise and cost savings offered by Cool Pair Plus enable us to enhance our service offering to our customers and increase efficiency of our operations. Cool Pair Plus has been our supplier of choice for quite some time now, and this agreement further expands our positive working relationship."

David Baldwin, Cool Pair Plus's Vice President, stated, "This is exactly what I envisioned when I joined Cool Pair Plus – a company with the size and strength of Unisyn to see value in our depth and skill set offerings. We are very proud to have this group on our resume."

About Cool Pair Plus, Inc.

Cool Pair Plus has been providing MRI Cryogenic Equipment and MRI Service since 1995. We offer exchange and repair services for MRI Coldheads and Compressors for Sumitomo, Balzers, Leybold, and APD. We have in stock MRI Flexlines and Adsorbers. Our Expert MRI Service consists of Emergency On-Site Repair, Cryogen Sales & Fill Services, Cooldowns, Pumpdowns, Ramping & Shimming for GE, Siemens & Philips MRI systems. Cool Pair Plus is also an industry leader in Non-Medical Cryogenic equipment support for laboratory and industrial applications worldwide. For more information, please visit www.coolpair.com.
